PLANMAX

FURNITURE WHICH
MAKES PEOPLE
COMFORTABLE AND
HAPPY

Pleasant Workspace Play Office

An office has to be one of the most important places since people spend a major part of their time here. As people are central to the success of any business, we offer office furniture which makes people comfortable and happy. We make future-oriented offices where infinite imaginative power and creative thinking work together. This is the "PLAY OFFICE" - the office concept that PLANMAX is presenting.

Space renewing innovation items

Sound absorption PARTITION

Partitions that absorb 30% of the noise-
It's quieter to divide and replace space.

The lightest PARTITION in the world

Light to lift. Light to change the layouts.
Lightly divide and change the space.

Eco-friendly PARTITION

Eco-friendly certification partition,
which is difficult to get due to strict
standards. Divide and change space
with more healthily.

MX

Divide, add, remove the color...

To prevent all spaces in the partition world that design space in color according to the style and sense of space, from becoming normal. Create partitions that add innovation to innovation
Space is more convenient, quieter, new.

T-PLANMAX

Partition innovation

30T

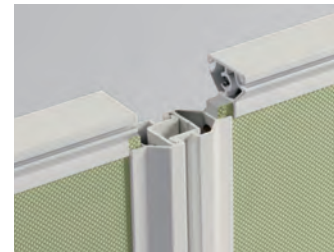

T-PLANMAX with ultra-thin thickness of 30T is the modular system office panel matching well with any office space or desk of any structure and available in various sizes up to the double width.

Ultra-slim, lightweight, and functional module system for departmental and team.

30T (T-PLANMAX)

FRAME CONNECTING TO BE INSTALLED SO QUICKLY AND EASILY

The finish bar has the structure same as that of frame connection. It has the simple structure that can shorten the time for panel assembly and reduce the use of parts.

ASSEMBLE WITHOUT THE TOOL CONNECTOR

T-PLANMAX is a panel system with easy assembly and disassembly, connectable to the frame using only the connector without need for separate tools.

DESK COUPLING CONNECTOR DESIGNED BY THE IDEA AND TECHNOLOGY UNIQUE TO PLANMAX

It is a connection system ensuring very convenient and robust connection of panel and desk and applicable to the desk of any size.

Finishings / PANEL 45T Fabric color

e-PLANMAX

Partition innovation

601

e-PLANMAX has the look and feel of permanence, but can easily be modified to adjust to the changing work environment. Whether adding panels to increase privacy, adding overhead cabinets for storage space or removing panels to foster a more open, collaborative environment, e-PLANMAX has the flexibility to accomplish it all.

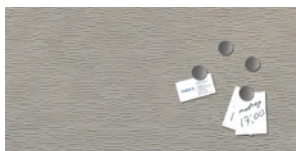

The combination of slim design and clean colors provides a simple, comfortable environment for office space.

HANGING SHELF

SHELF SUPPORT SHELF

FABRIC TILE

As the tile is made of iron plate and covered with fabric, it can be used as a memo board using a magnet.

SOUND ABSORBING TILE

As the sound-absorbing tile is built-in within the iron plate structure and is covered with fabric, sound absorption ability is very excellent.

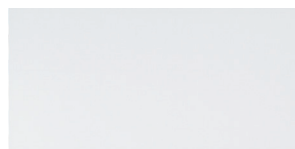

GLASS TILE

The tile can be applied to the space in which user's privacy is secured and openness is required as well.

SCREEN GLASS TILE

As it is made of silk screen, the tile can be used more suitably than glass-tile when privacy is more required.

MARKER BOARD TILE

The tile can be used as a marker-board.

ACCESSORY GRILL TILE

Any other accessories can be angled on the rail-style groove.

WOOD-PATTERN SHEET TILE

The tile is covered with wood-pattern sheet whose surface intensity is excellent and thus it is suitable for noble space.

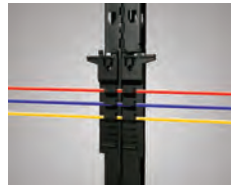

60T (e-PLANMAX)

BELT TILE HINGE
Developed by e-PLANMAX's own technique, spring hinge applied to belt tile opens and closes smoothly and makes allocating easy when fully opened.

FINISH RUBBER
Rubber is attached to the bottom of belt tile, making the line drawn out easily.

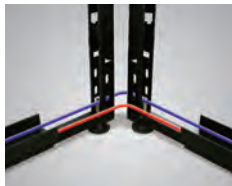

WIRING OF BELT LINE
Wire clip is attached in the middle of frame, so users can arrange the wires without twist of lines.

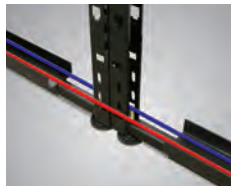

BELT TILE
The main reason that e-PLANMAX is distinguished from other products is allocating system. It is designed by open-style allocating way, not frame-penetrating method. This method helps users control the allocation and the e-PLANMAX embeds a large amount of wires. Thus, this provides a perfect working environment for each users in the office.

STABILIZER
Slim stabilizer, minimizing hooking foot.

WIRING OF BASE LINE
Wire housing enables large amount of allocation.

FRAME CONNECTOR
Using connector, e-PLANMAX's unique combination is made. The connector made of high impact plastic mould enables system-construction without any tools fast.

e-PLANMAX not only boasts slim design, enlivening color and economic feasibility, but also adopts an open wiring system that encompasses high-capacity wiring and makes it easy to care.

Side Panel

Composed of polycarbonate, the side panel blocks the unwanted viewers from outside and adds an elegant look to your office. You can also adjust the angle to place it wherever you want.

PLANMAX

Partition innovation

701

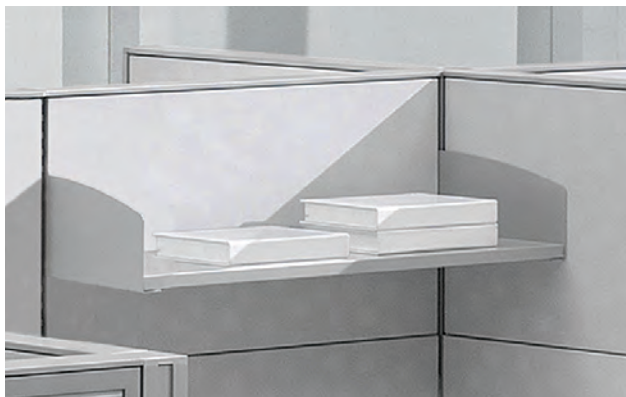

PLANMAX is characterized by simple and sleek design elements.

It's practical and flexible design result in efficient communication and stability in an active work environment. However, simple and sleek design elements are without the sacrifice of strong and sturdy structure. Comfortable work environments are created for both multiple and individual workstations, resulting in greater work productivity and efficiency. Maximized use of space and facilitation of communication are both achieved with PLANMAX, with its simple design, which make altering the layout or specific units a breeze.

The combination of solid design and sleek color creates a luxurious office space.

HANGING SHELF

GRILL TILE FOR ACCESSORIES / Paper tray, CD tray, Pen vase

FABRIC TILE

As the tile is made of iron plate and covered with fabric, it can be used as a memo board using a magnet.

SOUND ABSORBING TILE

As the sound-absorbing tile is built-in within the iron plate structure and is covered with fabric, sound absorption ability is very excellent.

GLASS TILE

The tile can be applied to the space in which user's privacy is secured and openness is required as well.

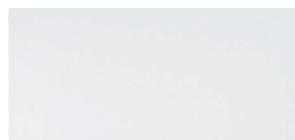

SCREEN GLASS TILE

As it is made of silk screen, the tile can be used more suitably than glass-tile when privacy is more required.

WIRING TILE

4-port receptacles and LAN conduit is attached on the tile.

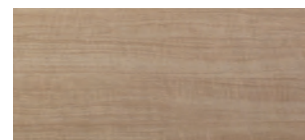

MARKER BOARD TILE

The tile can be used as a marker-board.

ACCESSORY GRILL TILE

Any other accessories can be angled on the rail-style groove.

WOOD-PATTERN SHEET TILE

The tile is covered with wood-pattern sheet whose surface intensity is excellent and thus it is suitable for noble space.

70T (PLANMAX)

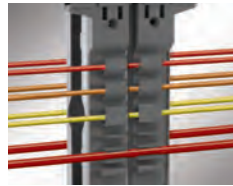

BELT TILE

It is designed by open-style allocating way, not frame-penetrating method. This method helps users control the allocation and the PLANMAX embeds a large amount of wires. Thus, this provides a perfect working environment for each users in the office.

BELT TILE HINGE

Developed by PLANMAX's own technique, spring hinge applied to belt tile opens and closes smoothly and makes allocating easy when fully opened.

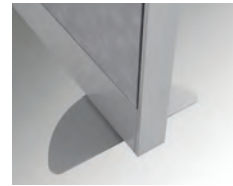

WIRING OF BELT LINE

Wire clip is attached in the middle of frame, so users can arrange the wires without twist of lines.

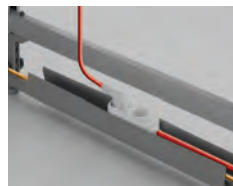

FINISH RUBBER

Rubber is attached to the bottom of belt tile, making the line drawn out easily.

STABILIZER

Slim stabilizer, minimizing hooking foot.

WIRING OF BASE LINE

Base emitting high impact engineering plastic ensures optimum space, and as guide-clip is parallel type, it is easy to arrange the lines. Also, wire housing enables large amount of allocation.

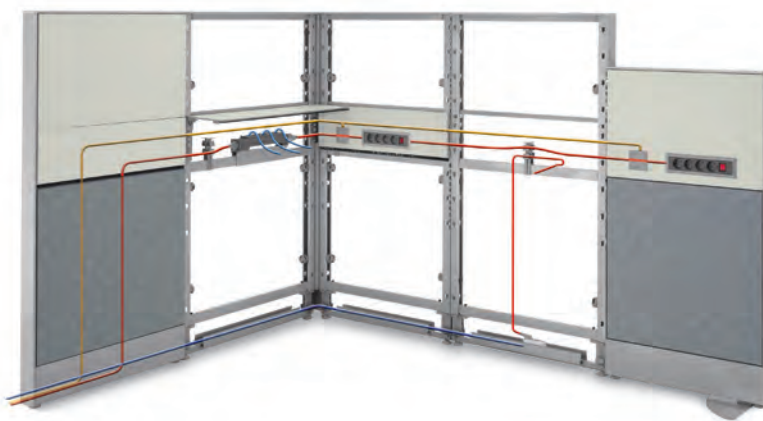

FRAME CONNECTOR

Using connector, PLANMAX's unique combination is made. The connector made of high impact plastic mould enables system-construction without any tools fast.

PLANMAX Series boasts its durability with the thickness of 70T and its metallic silver color meets the high standards of high end office furniture. PLANMAX shows you how the perfect wiring system can actively and inter-relatively improve your work environment.

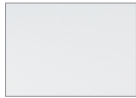

Sliding Door

Poly-Carbonate sliding door installed inside the Panel can be taken out conveniently when you need it and for worker's privacy and use. The door gives really smooth sliding.
